Phillips Outdoor Services uses Wood Defender in treatment of fences and decks. Wood Defender provides contractor-grade commercial wood stains and sealers. Their product is a deep-penetrating modified oil formula that ensures superior results every time in just one application with no back brushing. It's also VOC compliant and environmentally friendly.

## STANDARD PAINTS INC. OFFERS 3 OIL-BASED PRODUCTS IN THE WOOD DEFENDER LINE:

- Transparent Fence Stain
- Semi-Transparent Fence Stain
- Transparent Deck Stain

Each of the products is formulated for a specific application and incorporates the latest technology and finest raw materials available to give them unparalleled performance for their suited application. They are each manufactured with stringent quality control to guarantee consistent performance.

### Semi-Transparent Fence Stain

This fence stain is a unique product utilizing opaque pigments which offer unparalleled ultra-violet protection while still allowing wood grain to be visible. Product is backed by a 3-year warranty.

### Transparent Fence Stain

This product has a customized formula designed with finely ground trans-oxide pigments allowing all wood grain to be visible while also providing excellent UV protection. The transparent fence stain comes with a 2-year warranty.

### Transparent Deck Stain

A specialized blend of natural oils coupled with silicone to provide superior protection on horizontal surfaces. Product also comes with a 2-year warranty.

*By saturating the surface of the lumber, the Wood Defender product penetrates into the substrate, leaving the deck with an even, uniform coating. The average life of Wood Defender stains on a properly treated project is 2-3 years.*
